

"PRESIDENTIAL ROW," CHICAGO, BUSY

Chicago, May 18.—"Presidential Row," an institution unique in American politics is preparing for the final drive that will eliminate the week of June 8 in the nomination of a republican candidate for president of the United States. The "row," which each four years is the center of national pre-convention politics, is going through the biggest season in its history.

"Presidential Row" includes parts of two Michigan Boulevard hotels, which are connected by a subterranean passage way, and along the row every leading republican presidential candidate has established or will establish his headquarters. Here, too, the republican national committee maintains extensive offices, while the democratic committee meets here on occasion.

Since the republicans began holding their conventions here regularly in 1904 the "row" has become an institution of the party.

The national headquarters of Governor Frank O. Lowden and Major General Leonard Wood were the first to open this season. The Wood delegation has been active on the "row" since early last winter and the Lowden camp has been on the ground since January 1.

Later arrivals included western head-

quarters for Herbert Hoover and Attorney General A. Mitchell Palmer, and the regional office of the National Personal Liberty League, working in the interests of Governor Edwards, democrat of New Jersey.

Reservations have been made for Senator Hiram Johnson, Senator Miles Poindexter and Governor Coolidge, of Massachusetts. They will open offices several days before the convention.

The republican national committee has had offices on the "row" for several months. The committee will move to convention headquarters at the Columbus about May 24, and there will begin hearing contests for convention seats on May 25 or 26, according to present plans.

Following the convention the republican committee will occupy an entire floor, including the ball room, in a downtown hotel.

Will H. Hays, chairman of the committee, is expected to spend considerable time during the campaign here, and one of the large hotel parlors is being prepared for his private office.

The democratic national committee will maintain headquarters here, but has not yet selected a location. Chairman Homer S. Cummings will divide his time between the offices here and those at the Grand Central Palace, New York.

CAMPBELL'S MILLS

The Brunswick Name Certifies an Extraordinary Tire

Many motorists buy Brunswicks because of the name alone. It is sufficient assurance for them of super-quality.

They have known this ancient house for its high standards, as have their fathers and grandfathers. Since 1845 the House of Brunswick has been noted for its rare workmanship.

Brunswick standards, as applied to tires, mean giving the utmost. In them you will find combined all the approved features properly related. No one advantage overshadows others nor hides shortcomings.

The best tread that's known, the strongest fabric, the most enduring side-wall construction, every addition, every extra, make Brunswicks prove their superiority. No factory cost has been too great.

ONE Brunswick will win your decision to have ALL Brunswicks. It will be a revelation.

Buy it today. It costs no more than like-type tires.
